**Howdy Classmates of '57!**

**Thank you for your kindness and consideration to include those of us who were not fortunate enough to finish our sojourn at Tucumcari High. Shortly after my sophomore year, my family bought a winter home two blocks from the University of Arizona and two blocks from Tucson High where I graduated. I remember that was when I had more energy than good sense. I cannot tell if much has changed after 50 years, yet I enjoy superb health and have been making lots of tracks. I greatly regret that I may not be able to return from a speaking itinerary to South Africa, Kenya and Mozambique in time to attend the reunion.**

**For the benefit of whomever my have wondered if an old friend might be near while passing through the night, I will submit this abbreviated account of the places when I went to school, lectured, worked, pastored or owned a business:**

**University of Arizona  
North Texas University, Denton  
New Mexico State University, Las Cruces  
CBC, Springfield, MO  
Southwestern A/G College, Waxahachie, Texas  
RDI, Washington D.C.  
University of Hawaii, Honolulu  
Honolulu Community College**

**Ever since the freshman year in college I have held numerous positions in commercial and Christian radio and television broadcasting including KCRG TV, Cedar Rapids, Iowa and Doubleday Broadcasting Co., El Paso, Texas. More recently, I hosted an international daily program simulcast over most of the Pacific and much of the Orient from Hawaii (where I lived seven years).**

**Some classmates may be interested that I sold the Briscoe Ranch and also the irrigated farm to my brother, Glenn.**

**While living in Clovis, NM, I bought an automotive dealership, pastored the Clovis Christian Center and bought the First Methodist Church building.**

**Presently, when I am not traveling, I live alone with a few fine horses near Tucson, AZ. My three delightful sons live in Oregon, Texas and Nevada.**
